## Bob's Rocket

In a galaxy far away, there lived a little alien called Bob. Bob lived on a small blue planet with three moons.

Bob liked his alien home but he spent his time dreaming of flying into space to visit the moons. He wished he had a real spaceship.

All Bob had was a toy rocket. Soon, he got fed up with pretending to be an astronaut so he threw his toy rocket into the space dust!

The space dust began to swirl around the rocket in the moonlight. Just like magic, the rocket started to grow and stretch until it was a full-size real rocket! Bob was shocked!

He crept inside and sat at the control panel. A red button in front of him flashed 'LAUNCH'. What could he do? Bob pressed it and a loud countdown began. "10, 9, 8, 7..." This was it. Bob's dream was about to come true.

## Past Tense

Writing in the past tense means that you are writing about something that has already happened.

The little alien **built** a powerful rocket. He **launched** it and **flew** into space.

Don't Forget!

capital letters
